

Sports Club Management System --- “Guns and Poses”

Our Sports Club Management system will be a comprehensive system with all relevant information stored in separate classes. Our classes are listed below.

Customer information: All Customer information will be stored in this class. This will include their personal information such as name, date of birth, phone number, as well as their information pertaining to the club such as length of time as member and classes and services they have signed up for.

Membership plan: This will include the plans and fee's for daily, monthly and yearly, and punch pass subscriptions.

Trainers: This will be all personal trainer information. This will include the personal trainer's name, what they teach, and their fees.

Classes: All sports club activities will be included in this class. This will include swimming classes, rock climbing classes, cycling classes, martial art classes, Olympic lifting, as well as the days they are offered.

Rewards: The Rewards class will be a compilation of discounts and perks that are applied to certain members who apply. For example, if customer has been a member for over 5 years than a 10% discount is applied to their membership.
